

# Ostéo'Phyt

Articular comfort and suppleness

The inflammation is a natural organism response further to traumatism.

*Ostéo'Phyt*, made from herbal extracts in hydro alcoholic solution, regulates and relieves a large number of symptoms caused by inflammation through its natural mechanism.

*Ostéo'Phyt* can be used together with *Imm'Oxy* to fight against the oxidative stress linked to articular problems.

Contact your veterinary if symptoms persist.

## Composition

Dextrose, salt

## Analytical components

Moisture	96,7 %
